

He made learning fun every day. – Robyn

He believed in me. – Lawrence

Her thoughtfulness influenced my entire life. – David

Dear Friend of Putnam City,

I bet you have a few special teachers in your past about whom you could say something similar. A math teacher who didn't give up on you in algebra. A coach who pushed you to try the high jump even though you were only 5'8".

Every day, in every way our teachers are the heart of Putnam City. They are the ones who dry the tears, praise the effort, and offer potentially the only hug that a child might get that day. It is the aim of the Putnam City Schools Foundation to make teaching easier by providing support for classroom items that enrich the educational opportunities of our children, but *we cannot do it without you.*

For over 30 years, the Putnam City Schools Foundation has been supporting children, parents, teachers, and principals no matter the home situation they face, no matter the funding situation our schools face. We are at a very critical time in our state's history, and the need to demonstrably support public schools is vital to our children. Your gift to the Putnam City Schools Foundation shows that you believe in the quality public education that Putnam City Schools offers.

Would you make that gift today?

With your gift, the Putnam City Schools Foundation will

- Continue to provide eye glasses and eye exams to disadvantaged children
- Ensure that each child has a warm coat for the winter
- Inspire budding scientists and engineers in our STEM Labs
- Support a family's efforts to learn English and get better jobs
- Provide high quality parent training through Early Birds
- Fulfill teachers' innovative grant requests

We want to continue this work you have made possible in the past, and need your help to do it. In honor of a teacher who made a difference for you, please consider making a **tax deductible gift** to the Putnam City Schools Foundation.

Sincerely,

Roger Cude
Chairman of the Board

Jennifer Seal
President

MY GIFT IS:

- \$618** supplies two LED microscopes for a STEM Lab
- \$320** provides the monthly stipend for one English Language teacher
- \$150** pays for an eye exam and new glasses
- \$55** will purchase one Parent Literacy Kit for Early Birds
